

EXPERIENCE

With over a decade experience working with information systems, our skill level is ranked at a high level. Over the years we have encountered many difficult and trouble-free situations. It may take us hours or days, but no computer/network has stumped us yet. We provides complete service including training, networking design and repairs, custom build systems, laptop and printer repairs, servers, to complete repairs to all makes of Information Technology equipment.

We offer very competitive pricing starting at only FREE to non-profit organization

HOW WE CAN HELP

Z64 IT specialize in providing PC and Networking services to businesses that need support, but aren't budgeted for a full or even part-time IT management. We will work with your small and medium sized business as well as residential clients.

Generally, we contract to come to your place of business for a set number of hours per week/month for routine maintenance, security and virus updates, data backup, etc. Additionally we can be on call for a our regular customers at their contracted hourly rate. Please call for info on personalized solution that will meet your need
